

Statement by the Board of Directors pursuant to Chapter 18, section 4 of the Swedish Companies Act

The Board of Directors has proposed that the 2023 Annual General Meeting resolves on an allocation of profits entailing a dividend to the shareholders of SEK 4.25 per share. Accordingly, the dividend amounts to a total of SEK 1,157,570,685.25. Because of the Board of Directors' proposed dividend, the Board of Directors hereby makes the following statement pursuant to Chapter 18, section 4 of the Swedish Companies Act.

Profits brought forward from the previous year amount to MSEK 13,788, the share premium reserve amounts to MSEK 4,264 and the net profit for the financial year 2022 amounts to MSEK 3,364. Provided that the 2023 Annual General Meeting approves the Board of Directors' proposed allocation of profits, MSEK 20,258 will be carried forward. The company's restricted shareholders' equity is fully covered after the proposed dividend.

The Board of Directors considers that after the proposed dividend, the company's and the group's shareholders' equity will be sufficient in relation to the nature, scope and risks of the business. In this context, the Board of Directors has considered factors such as the company's and group's historical development, budgeted development and the cyclical situation.

The Board of Directors has considered the company's and the group's position and the company's and the group's prospects of fulfilling their commitments in the short and long term. The proposed dividend amounts to 4.8% of the company's shareholders' equity and 3.8% of the consolidated shareholders' equity. The company's shareholders' equity has neither increased nor decreased because assets and liabilities have been valued at fair value pursuant to Chapter 4, section 14 a of the Swedish Annual Accounts Act.

After the distribution of the dividend, the company's and the group's equity/asset ratio is approximately 77% and 58%, respectively. Accordingly, the company's and the group's equity/asset ratios are satisfactory by comparison with the industrial sector. The Board of Directors considers that the company and the group will be able to assume future business risks and to withstand potential losses. The dividend will not have a detrimental impact on the company's or the group's capacity to make further investments pursuant to the plans of the Board of Directors.

The proposed dividend will not have a detrimental impact on the company's and the group's capacity to fulfill their payment commitments. The company and the group have ready access to short- as well as long-term credits that can be drawn down at short notice. Accordingly, the Board of Directors considers that the company and the group are well prepared to respond to changes in regard to liquidity as well as unexpected events.

In addition to the above, the Board of Directors has considered other known circumstances that may be significant to the company's and the group's financial position. In this context, no circumstance has arisen implying that the proposed dividend would not appear justifiable.
