

**Getinge AB (a Swedish public limited liability company, listed at Nasdaq
Stockholm)**

EIN: 98-0357909

Distribution of shares in Arjo AB

**Attachment to Form 8937 – Report of Organizational Actions Affecting Basis of
Securities**

The information contained herein is being provided pursuant to the requirements of Section 6045B of the Internal Revenue Code of 1986, as amended (the “Code”) and is for general information only. The information contained herein does not constitute tax advice and does not purport to be complete or to describe the consequences that may apply to particular categories of shareholders.

Shareholders are urged to consult their own tax advisor with respect to the U.S. federal, state, and local and foreign tax consequences of the Distribution (as defined below).

Part II

14. Describe the organizational action and, if applicable, the date of the action or the date against which shareholder’s ownership is measured for the action:

With a record date of December 8, 2017, Getinge AB (“Getinge”) distributed to its shareholders all of the issued and outstanding shares of Arjo AB (“Arjo”) (the “Distribution”). In the Distribution, shareholders received one share in Arjo for every one share in Getinge held as of the record date. The first day of trading in Arjo shares at Nasdaq Stockholm was 12 December, 2017.

The Getinge trading symbol at Nasdaq Stockholm is GETI B while the Arjo trading symbol is ARJO B.

15. Describe the quantitative effect of the organizational action on the basis of the security in the hands of a U.S. taxpayer as an adjustment per share or as a percentage of old basis:

As a result of the Distribution, Getinge shareholders will be required to allocate their aggregate tax basis in their Getinge shares held immediately prior to the Distribution among the shares of Arjo received in the Distribution and the Getinge shares held immediately after the Distribution.

16. Describe the calculation of the change in basis and the data that supports the calculation, such as the market values of securities and the valuation dates:

The U.S. federal income tax laws provide that the allocation of the aggregate tax basis shall be allocated based on the respective fair market values of the resulting Getinge and Arjo shares received but the tax law does not provide any further guidance on the determination of fair market value. One method, and the one used for Swedish tax purposes, is to utilize the change in fair market value for Getinge shares as a consequence of the Distribution. The change in fair market value can be derived by comparing the share price on the final day for trading in shares of Getinge including rights to distribution of shares in Arjo and the share price the first day of trading in shares of Getinge exclusive of rights to distribution of shares in Arjo.

The lowest registered price on Nasdaq Stockholm for Getinge shares on December 6, 2017, the final day for trading including rights to Arjo shares, was SEK 144.2. The lowest price on Nasdaq Stockholm for Getinge shares on December 7, 2017, the first day for trading exclusive of rights to Arjo shares, was SEK 119. Based on that approach, $(119/144.2=)$ 83% of a Getinge shareholder's aggregate tax basis in his or her shares in Getinge prior to the distribution should be allocated to such shareholder's shares in Getinge and 17% should be allocated to such shareholder's shares in Arjo.

Shareholders are not bound by this approach and since other valuation methodologies may exist we urge shareholders to consult their own tax advisors regarding these basis allocation calculations.

Shareholders that have acquired different blocks of Getinge shares at different times or at different prices should consult their tax advisor regarding the allocation of their aggregate basis among Getinge and Arjo shares.

17. List the applicable Internal Revenue Code section(s) and subsection(s) upon which the tax treatment is based:

Getinge shareholders should not recognize income, gain or loss for U.S. federal income tax purposes on the receipt of Arjo shares in the Distribution pursuant to Section 355(a) and 368(a)(1)(D) of the Code.

The aggregate basis (as determined for U.S. federal income tax purposes) of the Arjo shares and the Getinge shares in the hands of Getinge shareholders immediately after the Distribution should be the same as the basis of the Getinge shares held by such shareholders at the time of the Distribution pursuant to Section 358 of the Code.

Under Section 1223(1) of the Code the holding period of Getinge shareholder in Arjo shares received in the Distribution should include the holding period of the pre-distribution Getinge shares with respect to which the distribution of Arjo shares was made.

You should consult your own tax advisor as to the particular tax consequences of the Distribution to you, including the applicability and effect of any U.S. federal, state and local tax laws, as well as foreign laws, which may result in the Distribution being taxable to you.

18. Can any resulting loss be recognized?

No loss may be recognized by a Getinge shareholder upon the receipt of Arjo shares in the Distribution.

19. Provide any other information necessary to implement the adjustment, such as the reportable taxable year:

The Distribution was effective on December 8, 2017 (the first day of trading in Arjo shares was December 12, 2017). For a Getinge shareholder whose taxable year is calendar year, the reportable tax year is 2017.
