

# Data Notice – Operating tables

## Purpose of this notice

The purpose of this data notice is to inform you, in accordance with the transparency requirements for connected products under Article 3.2 of the EU Data Act, about the product data generated through your use of operating tables and your rights regarding such data.

Data that is accessible to you through the device's user interface and typically utilized as part of providing care is not included in this data notice. Also note that the information below regarding type of data, format, volume etc. may vary based on the use and setup in each individual case. Please contact us if you have any questions related to your devices.

## Product data generated by the connected product

During use, the product may generate the following types of data:

Product	Type of data	Format of data	Estimated volume (bytes per day)	Capable of generating data continuously and in real time
Corin	Log files (time stamp, errors, S/N, service/table configuration data), machine/sensor data	CSV, TXT, PBD	1000000 (1MB)	Yes
Alphamaxx	Errors	DEC	2	Yes
Meera	Log files (time stamp, errors, S/N)	CSV	320	Yes
Otesus	Log files (time stamp, errors, S/N)	CSV	160	Yes
Magnus	Log files (time stamp, errors, S/N)	CSV	640	Yes
Yuno II	Log files (time stamp, errors, S/N)	CSV	160	Yes

## Storage of product data and retention time

Product	Capable of storing data on-device or on a remote server?	Retention time	Possibility to delete product data manually
Corin	Yes, on-device as well as on a remote server if connected to FleetView.	If connected to Fleetview, the product data is stored permanently.	Yes. Deletion in Fleetview could be made upon request.
Alphamaxx	on-device only.		Yes
Meera	on-device only	For on device, it depends on the amount of data (data is continuously overwritten).	Yes
Otesus	on-device only		Yes
Magnus	on-device only		Yes
Yuno II	on-device only		Yes

## How you may access the product data

If your product is connected to FleetView, the product data will be accessible to you through that platform. Product data not available in FleetView, can be accessed by contacting Getinge as described below.

### Contact details for access requests

To request access, or ask questions about data access, contact Getinge through:
