Data Notice – Rotaflow II

Purpose of this notice

The purpose of this data notice is to inform you, in accordance with the transparency requirements for connected products under Article 3.2 of the EU Data Act, about the product data generated through your use of Rotaflow II and your rights regarding such data.

Data that is accessible to you through the device's user interface and typically utilized as part of providing care is not included in this data notice. Also note that the information below regarding type of data, format, volume etc. may vary based on the use and setup in each individual case. Please contact us if you have any questions related to your devices.

Product data generated by the connected product

Product	Type of data	Format of data	Estimated volume	Capable of generating data continuously and in real time
Rotaflow II	PDMS use case - physiological measurements - machine events - user events - service events - device status (software versions, serial numbers, batteries status) - device configuration (calibration, sensors limits) Note: all data listed above is timestamped	CSV over serial interface	< 0,8kB/s	Yes
	FleetView use case - device status: operating times, software versions, batteries information, next service due date - selftest results - machine events - user events - service events - system logfiles	AIDE protocol	10 MB per transfer	No

Storage of product data and retention time

Product	Capable of storing data on-device or on a remote server?	Retention time	Possibility to delete product data manually
Rotaflow II	Yes: at rest (i) on device and/or (ii) on Getinge servers (FleetView use case)	On device – at least 365 days If connected to Fleetview, the product data is stored permanently.	Yes, via the service tool through the service access.

How you may access the product data

If your product is connected to Fleetview, all the product data will be accessible to you through that platform. If not connected, it can be accessed by contacting Getinge as described below.

Contact details for access requests

To request access, or ask questions about data access, contact Getinge through:
