Watch Our New Video Series

New Video Series features **Dr. Redwood, Dr. Perera and Dr. Pijls**

Through informative presentations and case-study discussions, these world-renowned interventional cardiologists look at the critical science that dispels misconceptions around today's mechanical circulatory support options. In addition, they offer insights into clinical application, including physiological triggers for the escalation of therapy in hemodynamic support.

Dr. Simon Redwood

Dr. Divaka Perera

Dr. Nico Pijls

Watch the three-part video series:

The Critical Science

The Clinical Enigma

Real-World Applications
