

# Learning for life

## Education & Training

In-depth knowledge of therapies and medical technology is central for improving care efficiency. Getinge's dedicated training staff will help your clinicians and hospital staff deliver quality care and make vital decisions. With our training programs for implementation of solutions, you will ensure regulatory compliance, best practices, and better hospital workflows.

### Cooperating to reach the results you need

Getinge solutions includes an applicable range of educational options. Our trainers will partner with you to develop a training setup that is tailored to your needs and directed to meet the demands and goals of your hospital.

### Striving for excellence

With our education and training courses we help you become a better clinician or biomed. We offer training programs to handle new Getinge equipment, operate in a new Getinge IT solution or learn new options for treatment.

### Flexible training programs and platforms

We offer to improve your skills via instructor-led training, either onsite or virtually. Additionally, we offer easy accessible self-paced online learning such as webinars, eLearnings, videos, podcasts and guides.

### Learning from experts

As the manufacturers of premium hospital equipment and provider of clinical solutions we have both the business experience and clinical know-how to help you develop your skills for the long run.

### Part of Getinge 360° Services

To provide you with the best possible services, we are considering the entire journey of delivering healthcare. From value creation partnerships and financial solutions, to planning and design of workflows, project implementation, education and training, digital services and equipment uptime through preventive maintenance services. All aligned for your operational and financial goals.
