

# Get all the benefits of being connected

## Digital Services

With focus on digitalization, we support your efforts to improve care efficiency throughout your hospital-wide workflow. Signing a Getinge Care service agreement gives you real-time data diagnostics and faster troubleshooting to optimizing the use of your Getinge equipment. We support you in analyzing data about your Getinge equipment, procedures, and patient flows to provide effective care for your patients.

### Optimize your equipment performance

No matter where you are, our digital services makes sure you stay connected, with unprecedented access to benefits such as usage statistics data for clinicians, remote diagnostics, machine learning based predictive maintenance services, automatic replenishment of consumables and detailed, real-time information about your Getinge equipment and relevant notification to your choice of mobile units. We make it easier for your staff to concentrate on what matter the most, clinical quality and patient safety.

### Ensure maximum uptime

Detailed equipment and process information in real-time enables instant diagnostics and fast proactive troubleshooting, ensuring maximum equipment uptime and throughput.

### Save valuable time on proactive maintenance

Remote diagnostics enables your local hospital service technician to make use of our context-based help function. We offer the guidance and support you need to resolve complex issues. Either way, you don't need to wait for us to show up on site.

### Optimize your workflow

With continuous access to statistics and analytics you can identify potential cost and time savings by optimizing your hospital workflows.
