

Say hello to mobile order picking

and goodbye to paper pick lists

Smarter tools mean greater relief for staff. The T-DOC Mobile App gives real-time visibility of order picking and delivery progress - ensuring sterile goods are ready for every surgical procedure.

Easing staff workload
with the intuitive interface

Increasing productivity
through smoother workflows

Supporting sustainability
by reducing paper use and costs

Redefining efficiency in the sterile stock

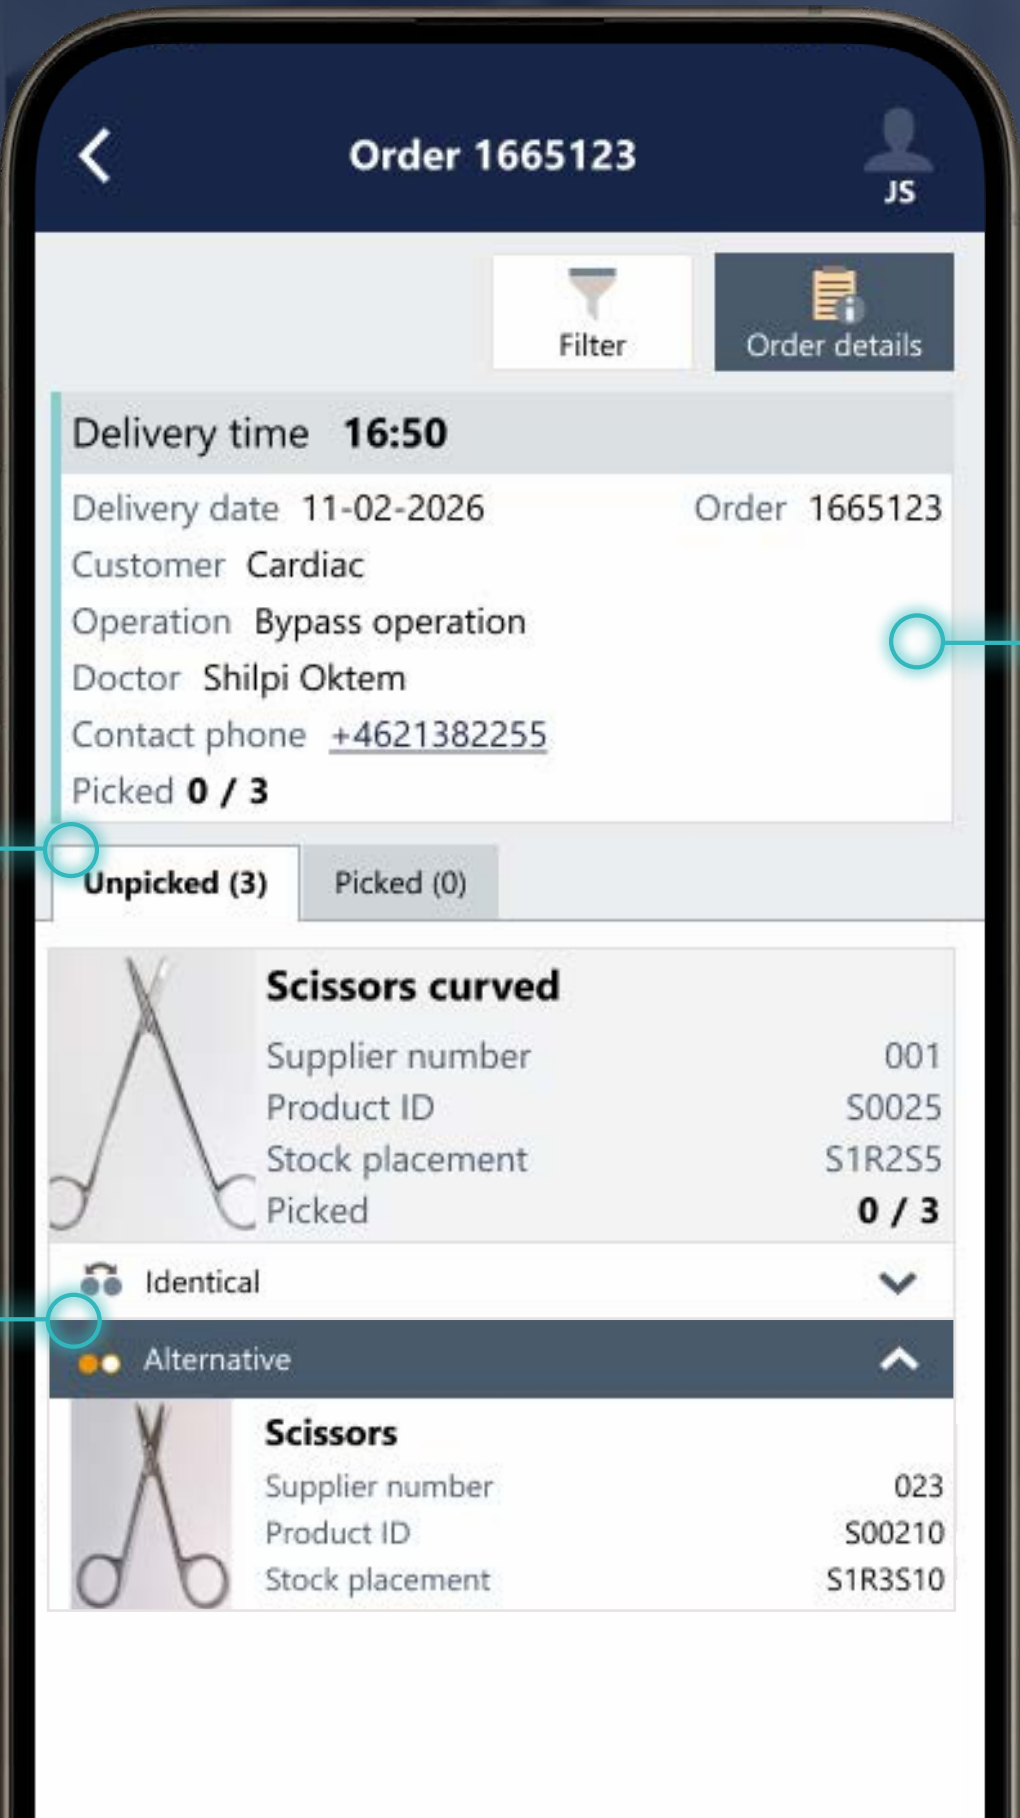

The T-DOC Mobile App puts order management in the hands of CSSD staff.
The app enables instant picking, clear scanning guidance, and a complete order overview — all while reducing errors and keeping workflows moving smoothly.

Add articles to various types of tags
