

Liberating performance

Introducing the all-new Servo-air NIV
wall gas independent ventilator.

Ventilation can be complicated. The ventilator doesn't have to be.

READY

Preparing

Pre-use check is performed during stand-by. On-screen help, with images and text, guides you at every step. Turbine driven NIV ventilator, independent from wall gas and external powersupplies.

SET

Setting up

On-screen instructions help you choose between modes. Dynamic images show how each adjustment affects the ventilation. Intuitive user interface and on-screen instructions. No need to switch to separate High Flow therapy system.

GO

Running

Uninterrupted quiet Non Invasive ventilation with high pressure and high flow capacity, yet gentle and responsive for pediatric and adult patients.

FREE

Mobility

A NIV, turbine driven ventilator, independent from external power supplies gives you a NIV ventilator to be used from ICU to Intermediate care and for intrahospital transportations.
